

## INSIGHT LANDSCAPES

# SLEEK AND STUNNING

### LOW-MAINTENANCE MODERN STYLE

Insight Landscapes has created a sleek, stunning landscape that ties in perfectly with the modern style of the home. The low-maintenance design of the outdoor area effortlessly fits in with the busy lifestyle of the homeowners.

Strong attention to detail has resulted in a landscape that provides room for play, as well as ample protection from the elements.

A 4m x 4m cabana features grey granite paving that extends around the pool. White rendered block retaining walls match the rendering of the home, while keeping the landscape colour palette simple and elegant.

Running parallel to the pool is a stepping stone pond with three simple water fountains, bringing a sense of tranquillity to the garden. Insight Landscapes has incorporated low-maintenance bamboo and tropical plants, which bring a pop of lush green colour to the landscape.

Insight Landscapes has been building quality designs for commercial and residential customers throughout metropolitan Sydney and Wollongong for more than 12 years.

The company specialises in a number of different areas and has great expertise in developing outdoor entertaining areas, unique gardens and pool surrounds. Insight Landscapes project manages its own work and has a talented team that can complete projects involving paving and tiling, retaining and feature walls, timber work, concrete, water features, irrigation systems, landscape lighting and excavation.

Insight Landscapes takes great pride in all projects it undertakes and ensures clients' ideas are integrated into the final design. The company has a strong portfolio of completed projects that can help give you inspiration to create your own dream outdoor area or poolside oasis.
